

East Midlands Primary Mathematics Conference 2019

Clarity, Coherence and Direction
– Getting Maths Teaching and Leadership Right in your School

“A Fantastic day, super workshops, speaker and resources – Thank You!”

Conference Summary

Clarity, Coherence and Direction – Getting Maths Teaching and Leadership Right in your School.

Following feedback from previous delegates, and in response to current research and best practice in Mathematics teaching and leadership, this year’s conference will focus on the “bigger picture” within Mathematics.

Ensuring all pupils receive a top-quality Mathematics education relies upon schools and Maths leaders having and sharing a clear and coherent whole school vision for teaching and learning in their settings. This year’s keynote speakers will focus on some of the wider, whole school issues facing schools at the moment and discuss practical ways in which to be an effective and inspirational Maths Leader.

Full of practical ideas and exciting approaches, this year’s keynotes are a fresh take on CPD for Maths leaders. Nationally and internationally recognised speakers and curriculum experts will provide clarity around how to lead change most effectively, alongside expert led workshops which will focus on a broad range of areas for development in Mathematics.

Suitable For

Consultants, Academics, Headteachers, Maths Subject Leaders and Aspiring Subject Leaders

Delegates

East Midlands Primary Mathematic Conference

Key Note Speakers

Mark McCourt

Chief Executive of La Salle Education.

A leading figure in mathematics education, Mark has led many large-scale government education initiatives, both in the UK and overseas. Mark was a Director at the National Centre for Excellence in the Teaching of Mathematics (NCETM) and has also been a school leader, an Advanced Skills Teacher, a school inspector and a teacher trainer. He was Senior Director at Tribal Group, which saw him working with schools and governments internationally. Mark founded and was Chairman of the Teacher Development Trust. He has extensive experience of mathematics teaching and learning across all age and ability groups, having taught students from age 3 to PhD!

Mary Myatt

Curriculum and School Leadership Expert.

Mary Myatt is an education adviser, writer, author and speaker. She works in schools talking to pupils, teachers and leaders about learning, leadership and the curriculum. She maintains that there are no quick fixes and that great outcomes for pupils are not achieved through tick boxes. She writes and speaks at conferences about leadership, curriculum and school improvement. Mary's most recent books '*high challenge, low threat*' and '*The Curriculum: Gallimaufry to coherence*' have received high praise from educationalists and sparked new thinking for leaders across the Country.

Steve Radcliffe

Author and Leadership Expert.

Steve Radcliffe is one of Europe's top leadership experts. In the last 20 years, he has provided leadership coaching to over 50 chief executives and heads of the Civil Service, the NHS and other government departments. He is most well known for his powerful leadership development approach, Future – Engage – Deliver, that The London Times describes as: "the no-nonsense approach ... shaking up the world of leadership"

Conference Workshops

Delegates will be provided with access to two 1-hour workshops at our event provided by school led maths specialist and consultant partners.

Workshop titles for this year conference will include:
